TABLE OF CONTENTS

		PAGE
Adjustment of iron supply to requirements of soy bean culture (with two figures)	*R. P. Marsh* and *J. W. Shive*	1
A distortion of the 3:1 ratio. Contributions from the Hull Botanical Laboratory **329**	*Merle C. Coulter*	28
Spathyema foetida (with plates I–IV)	*J. Marion Shull*	45
Crossing *Iris Pseudacorus* and *I. versicolor*. Contributions from the Hull Botanical Laboratory **330** (with plates V–X and one figure)	*M. Louise Sawyer*	60
Catalase activity and the aerobic and anaerobic germination of rice. Contributions from the Hull Botanical Laboratory **331**	*Toshitaro Morinaga*	73
Differentiation of sporangia in *Marsilia quadrifolia*. Contributions from the Hull Botanical Laboratory **332** (with nine figures)	*Cornelia C. Marschall*	85
Symbiosis in a deciduous forest. II. (with one figure)	*W. B. McDougall*	95
Stony layer in seeds of gymnosperms. Contributions from the Hull Botanical Laboratory **333** (with plate XI and eighty-eight figures)	*Eduardo Quisumbing*	121
Physiology and morphology of *Pythiomorpha gonapodioides* (with plates XII, XIII)	*Bessie B. Kanouse*	196
Development of embryo sac in *Gasteria*, *Cyrtanthus*, and *Veltheimia* (with plates XIV, XV, and seven figures)	*Ethel G. Stiffler*	207
Female gametophyte of *Trillium sessile* (with plates XVI, XVII)	*R. C. Spangler*	217
Inherent factors related to absorption of mineral elements by plants. Contributions from the Hull Botanical Laboratory **334** (with eight figures)	*Robert B. Dustman*	233

PAGE

The Hemisphaeriaceae of British Guiana and Trinidad (with plates XVIII–XXI) - - - *F. L. Stevens* and *H. W. Manter* 265

Ontogenetic study of *Phylloxera caryaeseptem* (with plates XXII–XXV) - - - - - - - - *A. C. Martin* 297

Growth studies in forest trees. III. Experiments with the dendrograph on *Fraxinus americana* (with two figures) - - - - - - - - - *J. Elton Lodewick* 311

Forms of nitrogen in pure cultures of algae - - *E. B. Fred* and *W. H. Peterson* 324

Correlation and cyclic growth in plants - - - *A. E. Murneek* 329

Dispersion of lipoids. Contributions from the Hull Botanical Laboratory **335** - - - - - - *Dean A. Pack* 334

Physiological study of the symbiotic germination of orchid seeds - - - - - - - - - *Lewis Knudson* 345

Tropical light weight woods (with plates XXVI–XXVIII) - - - - - - - - - - *Karl C. Hyde* 380

Variation in size and form of *Pyrus serotina* (with one figure) - - - - - - - - - - *A. Kikuchi* 412

Conditions for germination of spores of *Onoclea sensibilis*. Contributions from the Hull Botanical Laboratory **336** (with plate XXIX, and one figure) - - - - - - - - - - *Constance E. Hartt* 427

A new specimen of *Lepidostrobus foliaceus*. Contributions from the Hull Botanical Laboratory **337** (with plates XXX–XXXII) - - - - *Juan D. Campos* 441

BRIEFER ARTICLES—

William James Beal (with portrait) - - - *Ernst A. Bessey* 103

Effect of light on availability of iron to wheat plants in water cultures (with one figure) - *W. F. Gericke* 106

An unusual intraovarial fruit in *Carica papaya* (with one figure) - - - - - - - - *H. F. Bergman* 222

Effect of wounding on respiration and exchange of gases - - - - - - - - - - *G. R. Johnstone* 339

Paradichlorobenzene in the herbarium - - *G. W. Martin* 450
